	 CI/CD: Google's Blaze, Mercurial, Bazaar, SVN, various internal code review tools Data: Apache Beam, RabbitMQ 	 Databases: MySQL, PostgreSQL Cloud: Google's Borg Typesetting: LATEX 			

Working Experience

Apr'21-curr. Senior software engineer, ML tech lead manager, Snyk (snyk.io 2), Zurich, Switzerland

- Conceived, developed and productionized several backend projects for Snyk Code
- O Working with adjacent teams on defining technical directions of the said projects.
- Organizing the infrastructure for training/evaluation of large NLP models for code analysis and search.
- Facilitating transition of internal computation pipelines to the cloud; implementing libraries that simplify/unify artifact storage and orchestration.
- O Leading (Jan'22 onwards) and growing a team of 5 FTEs, advising MSc thesis.
- Skills: C++17/20, Python, PyTorch, GCP/AWS, k8s/Helm, Docker,

Dec'20-Feb'21 Senior data engineer, SIX Banking Services, Zurich, Switzerland

- Organized technical stack, code review and other processes in a newly established data science unit.
 - O Performed analytical support of stakeholder busi- O Skills: Python, Geospatial analysis, Mircosoft ness units, provided analysis and computed KPIs for ongoing projects in payment ecosystems.
- O Participated in preparatory work for transition to cloud pipelines
 - Azure (Data Factory, DataLake, Databricks), JFrog Artifactory, data security and compliance.

Jun'18-Oct'20 Machine learning & computer vision engineer, Daedalean Al (ddln.ai d), Zurich, Switzerland

- Conceived and developed a prototype of a visual air-to-air object detection and tracking system (as part of autopilot collision avoidance).
- Researched, evaluated and made early technical decisions, shaped out data acquisition and annotation strategies. Defined evaluation metrics, navigated aviation industry standards on operational performance.
- O As part of a 4-member team, worked with European Aviation Safety Agency on defining the concepts of safety assurance for neural networks (coauthored gron.sk/codann c, see "Publications").
- Conceived, developed an extendable and modularized machine learning evaluation and reporting framework used across several projects.
- Co-supervised interns and joint MSc/semester
- Carried out flight tests as a fixed-wing aircraft pilot.
- O Skills: C++14, Python, Tensorflow, Git, object detection and tracking, cloud computing and automation (GCP/GKE/KubeFlow/Jenkins), operational performance metrics, technical ownership, requirements design, product development cycle.

May'17-Sep'17 Research intern, Research and Machine Intelligence, Google Zurich, Switzerland

- Worked on answer ranking module for active ques Approved for full-time conversion by the hiring tion reformulation (see Google AI blog post ♂).
- O Developed several deep learning models for an-
- Presented at monthly meeting of Google Research.
- committee.
- O Skills: Python, C++11, Tensorflow, NLP, experimental design, MapReduce, communication.

ETH zürich

Aug'12-Mar'18 Doctoral research assistant, head teaching assistant, Machine Learning Group, Department of Computer Science, ETH Zurich, Switzerland

- O Conducted research in both theoretical and practor Supervised several MSc theses. tical fields (see "Projects" below).
 - Launched medical collaborations with University Hospital Zurich.
- Taught "Introduction to Machine Learning" and "Statistical Learning Theory" courses, created a script for the latter.

Apr'10-Aug'12 C++ software engineer, ABBYY Software, Moscow, Russia

- O Worked on a framework for automated native language understanding and translation.
- Designed, developed SDK wrappers for language
- morphology analysis and text classification.
- Skills: C++03, C#, COM/COM+/WinAPI, SVN, interface design, internal libraries, UML.

2008–2011 Independent (freelance) C++ developer

- Developed a cross-platform (Mac/Linux/Windows) Skills: C++03, Qt 4, MercurialHg, PostgreSQL, tool for photo management, sold and maintained it (archive GitHub ♂).
 - presentation skills.

Research Projects, Working Groups, Publications and Talks

- Participated in a working group (gron.sk/easa ♂) Co-authored a report "Concepts of Design Assurwhich aimed at establishing methods and concepts for ensuring operational safety of machine learning models in aviation.
 - ance for Neural Networks", whose official summary (gron.sk/codann ♂) was published by EASA.

Research Projects Statistical Mechanical Analysis of Combinatorial Free Energy, ETH Zurich with Center of & Publications Science of Information, Purdue University

- PURDUE
- **ETH** zürich o "On Phase Transitions of Free Energy in Combi- o "Free Energy Rates for a Class of Optimization
 - International Conference on Analysis of Algorithms (AofA) 2017, Princeton
 - tion Problems"
 - Analytic Combinatorics (SODA-ANALCO) 2017, Barcelona
- Problems"
 - International Conference on Analysis of Algorithms (AofA) 2014, Paris
- "Phase Transitions in Parameter Rich Optimiza- O "Asymptotic Evaluation of Posterior Agreement for some Optimization Problems"
 - J. of Theor. Comp. Sci. (TCS) 2018

Robustness and Informativeness of Minimum Spanning Tree Algorithm, ETH Zurich

- rithms"
 - Joint ETH & Google Workshop, Google, Zurich, 2016
- "On Informativeness and Robustness of Algo- "How Informative are Minimum Spanning Tree Algorithms"
 - International Symposium on Information Theory (ISIT) 2014, Hawaii

Machine Learning for Cardiological Diseases, ETH Zurich with University Hospital Zurich and MPI Tübingen, Germany

- Detecting causal and statistical dependencies be Launched and co-led the project initially, supertween key factors of Acute Coronary and Takotsubo syndromes.
 - vised BSc and MSc theses.

Robust Solving of Algorithmic Problems, ETH Zurich with Institute of Theoretical Informatics,

o "Robust Optimization in the Presence of Uncertainty: a Generic Approach" J. of Computer and System Sciences (JCSS) 2018

Education

ETH zürich

2012–2018 Doctoral degree (Dr. Sci. ETH), Machine Learning Group, Department of Computer Science, ETH Zurich, Switzerland

> Ph.D. Thesis "Statistical Mechanics and Information Theory for Approximate Robust Inference" (gron.sk/thesis ♂).

2006–2011 BSc + MSc, Department of Mathematics and Mechanics, Chair of Discrete Mathematics, Moscow State University of M.V. Lomonosov (MSU), Russia

- O Specialist (equiv. BSc + MSc) degree in Pure and Applied Mathematics, with Honors.
- Thesis "On some metrical properties of Boolean functions" (gron.sk/msc-thesis ♂).

Languages

0	Russian	native	○ German	fluent (C2 Goethe,	2016)
0	English	fluent	 French 	. fluent (C1 DALF,	2011)

Volunteer Work

- O Regularly trained as an ambulance assistant.
- O Participated in ambulance shifts during public events in the city of Zurich.
- Was a first responder to alarms from large-scale emergencies.

2007–2012 Lecturer/Teacher, MSU-/MIPT-based summer and winter schools ♂ for mathematics and programming, Russia

- Created original lecture/seminar materials.
- Conducted lectures and seminars for high school students.
- O Topics: mathematical analysis, discrete mathematics, programming.

Hobbies and Other Activities

Aviation Pilot, SWISS Flying Club (www.swissflyingclub.ch 2), Hausen am Albis, Switzerland

- contests
- Programming O II prize team, All-Russia Programming Contest II prize team, Moscow Programming Contest (2005).
 - (2005).

- Sports & Music O Karate (gold medal in Swiss Spring Kyu- O Alpine skiing and snowboarding. tournament, 2014).

 - O Playing flute, guitar.

Pilot blog Author, Telegram channel "CrossWind Landing" (in Russian) (gron.sk/x-wind 다)

- O Telling the story of learning for private pilot license in Switzerland. O Topics about aerodynamics, meteorology, and the fun of flying.

Blog Author, Personal blog on range of topics (gron.sk/posts ♂)

O Topics: aviation, tech, programming.
